# Experienced Dynamics 365 / AX developer

1ClickFactory is a leading Dynamics cloud software factory, a Microsoft ISV Development Center (one of 5 in the world) and the provider of Certified for Microsoft Dynamics quality assurance for Microsoft, Partners and ISVs across the world. The largest provider of NAV on Azure services in the world, 1ClickFactory is on the forefront of the Dynamics technologies helping Microsoft partners move forward into the Cloud.

We are looking for an experienced developer to add to our large Dynamics 365/AX team. As an experienced developer, you will be taking a role in complex projects and managing the quality of the development deliverables that we provide to our partners and ISVs. As a person, you like building good solutions, working with different people on different projects and cultures, learning new technologies, sharing the knowledge with your colleagues and taking ownership of client and colleague satisfaction.

As a company, we have an open Nordic culture, with high level of freedom coupled with distributed responsibility. It is a place where different opinions are valued as these help us create the best solutions for the Microsoft partners we serve. We are proud to grow the competences of our people as our company continues to grow.

## Your role will include:

- Developing Microsoft Dynamics 365 Enterprise and AX
- Microsoft Dynamics 365 Enterprise extensions according to functional documentation
- Technical documentation preparations and solution architecture
- Participating in Microsoft Dynamics AX/ 365 Enterprise upgrade projects, including:
  - Merging the code between different AX versions
  - Data migration of databases, testing and suggesting future improvements

## What we expect from you:

- More than 2 years of development experience with Microsoft Dynamics AX
- Knowledge of MS AX functionality
- Basic knowledge of accounting standards would be an advantage
- Basic knowledge of Microsoft SQL server implementation and maintenance
- Good spoken and written English
- Willingness to share your knowledge and experience with your colleagues
- Ability to work independently as well as in a team
- Good communication skills

## What we offer:

- Work with one of the best Dynamics 365/AX teams in the world
- Participation in different types of projects and assignments
- Informal and social working environment in a fast-growing IT organization
- Flexible working hours
- Professional development opportunities
- Participation in international conferences
