

Freelance Experienced/Senior Dynamics 365/NAV developer

1ClickFactory's Dynamics 365/NAV team is expanding again!

1ClickFactory is a Dynamics 365 software factory. Our high-quality Microsoft Dynamics 365 upgrade, development, and training services, together with our leading Microsoft Azure managed hosting service, help Microsoft Partners offer better business value to their customers delivering solutions on-premises and/or in the cloud. We exclusively serve Microsoft Partners whom we help reduce financial risk, increase scalability, shorten project time, solve resource shortage and increase cost predictability, leading to higher profits and greater revenues. Unlike the traditional ERP upgrade service providers who offer this type of service through 1:1 sourcing of people, 1ClickFactory takes responsibility for the projects, uses automation tools and has performed 500+ Dynamics NAV and Dynamics AX upgrades, 300+ development projects and serves 5,000+ NAV users on Azure. 1ClickFactory is a Microsoft ISV Development Center that is Gold Certified in Enterprise Resource Planning, Application Development and Cloud Platform. We are a global business currently delivering our services to 300+ partners in 40+ countries.

We are looking for an experienced/senior developer to add to our large Dynamics 365/NAV team. As a developer you will be working on the development and upgrade projects. As a person you like building good solutions, ensuring quality of your work, communicating proactively on any issues you encounter, working with different people on various projects, and learning new technologies.

Your role will include:

- Developing Microsoft Dynamics NAV with C\SIDE language
- Developing Microsoft Dynamics 365 Business Central extensions with AL language according to technical documentation
- Technical documentation preparations and solution architecture
- Participating in Microsoft Dynamics NAV/ 365 Business Central upgrade projects, including:
 - Merging the code and solving conflicts between different NAV versions
 - Transforming and redesigning of objects from Classic client to RTC
 - Migrating data of database, testing and suggesting future improvements
 - Moving code customizations to custom codeunits by using Events technology

What we expect from you:

- At least 3 years of development experience with Microsoft Dynamics NAV (C/SIDE , C/AL, and Visual Studio Code AL)
- Deep knowledge of Microsoft Dynamics NAV functionality
- Basic knowledge of accounting standards would be an advantage
- Basic knowledge of Microsoft SQL server implementation and maintenance
- Provide time and scope estimates for all required NAV customizations
- Good spoken and written English
- Responsibility and delivery of the tasks on time

What we offer:

- Work with one of the best Dynamics 365/NAV teams in the world
- Participation in different types of projects and assignments
- Flexible working hours
- Remote work
- No need to travel
- Professional development opportunities
- Long term partnership
- Timely payments
