Junior testing engineer

A trendsetting company: You will work only with the newest products and first in the market receive constant internal training on working with them. We believe we can change how software is provided to companies and invest heavily in this automation concept, which we call software robotics. Work as an innovator, search for ways to overcome technological boundaries and discover new things in the process.

Exceptional: We are one of only two companies in the World providing CfMD service by testing Parters' solutions and providing recommendations.

Truly international and dynamic environment: We foster Nordic culture. We have the possibility to plan our own work time and work remotely. Most of our customers/partners are IT companies outside Lithuania therefore you would have a possibility to be involved in projects around the globe.

Our team is friendly, helpful and overall happy people who are actively initiating and participating in loads of internal activities as team buildings, innovation days, table tennis tournaments, etc.

Strong professional competence: You will be supported by senior ERP specialists with more than 15 years of experience in Microsoft Dynamics business.

Your responsibilities:

• Performing software solution testing by following Microsoft Dynamics testing guidelines
• Executing functional solution testing per described user scenarios
• Testing solutions using automated tools and analyze received results
• Provide technical consulting
• Pro-actively initiate improvements

What we expect from you:

• Excellent spoken and written English skills
• Willingness to learn new applications and technologies
• Strong focus on details and quality
• Analytical mindset
• Ability to follow methodical procedures
• Knowledge of Microsoft Dynamics NAV would be a big advantage

1ClickFactory is a Dynamics 365 software factory. Our high-quality Microsoft Dynamics 365 upgrade, development, quality assurance and training services, together with our leading Microsoft Azure managed hosting service, help Microsoft Partners offer better business value and deliver solutions to their customers on-premises and/or in the cloud.

We exclusively serve Microsoft Partners whom we help through our expertise; by increasing cost predictability, scalability and efficiency, shortening project time and solving resource shortage. Our mission is to facilitate profit and revenue growth for our partners.

Unlike the traditional ERP upgrade service providers who offer this type of service through 1:1 sourcing of people, 1ClickFactory takes responsibility for the projects, creates innovative automation tools and has performed 500+ Dynamics NAV and Dynamics AX upgrades, 300+ development projects and serves 5,000+ NAV users on Azure.

1ClickFactory is a Microsoft ISV Development Center that is Gold Certified in Enterprise Resource Planning, Application Development and Cloud Platform. We are a global business currently delivering our services to 300+ partners in 40+ countries.
