14. Provide access to testing environment details to 1ClickFactory CfMD team in CfMD Self-Test request form.

## **Don't let CfMD overwhelm you! Get the support you need to pass CfMD**

At 1ClickFactory We already have helped more than 350 add-ons through the process of becoming CfMD. We are constantly seeking to help ISVs minimize the expenses and time needed to get their software solution through the Certified for Microsoft Dynamics (CfMD) process, thus we have built a [number of services](#).

*"Getting your ISV solutions CfMD certified is an enormous undertaking. There are numerous hoops to jump through and chronological steps you must complete to get started. 1ClickFactory not only was a great help for us by providing information on the certification process in a very structured way, but also helped us save a ton of money as well. With 1ClickFactory, we actually realized some CfMD activities that we had planned and budgeted are no longer necessary. It takes the pressure off when you know there are 1ClickFactory CfMD Professionals ready to help you whenever you need it. " -- Kristina Ferenkamp
