Let our people speak:

“I got a 1ClickFactory job offer 2,5 years ago. I had been working with Microsoft Moscow and other AX Partners during the last 10 years. After all the documents had been processed I got a visa type D which allowed me to work in Lithuania for one year. I had never been in Lithuania before, but I visited some countries in Western Europe and tried to calculate expenses. I took one bag and one bike and landed in Vilnius. The first impression in comparison with Moscow was, “Where are the thousands of people in the center?” The weather was great since it was July. To be honest I was afraid of my first day at work, because of hypothetical communication problems. But company administrator Viktorija gave me a very friendly welcome, and I also met people who could speak four languages and they helped me a lot. The accommodation cost half as much as in Moscow and it was in the historical center, compared with one hour to the center in Moscow. The work tasks were not familiar because I started working with the new version of AX, but I had great help from my colleagues. After 2,5 years working for 1ClickFactory, I can summarize that it was a great period of time. There were some challenges, but it was a great experience.” ~**Anatoly**

“I never saw so many happy people in one place. Looking at them I should be jealous. But I’m not, because I’m also part of the same 1Click team. Here, everyone has the chance to feel free, to be creative, and just be happy.” ~**Dainius**

“1ClickFactory fosters a creative working environment where every employee can learn new technologies and innovate. The organization gives recognition for work that is well done. The people who work here are intelligent, ambitious, motivated, show spirit in team work, and have fun at work. I am happy that I can be part of such a fast growing organization.” ~**Žydra**

Information about the employment procedure for non-EU citizens

To get a work permit is not as complicated as it might seem at first glance. It takes around 3-4 months in all, depending on how fast you are able to provide the necessary documentation. However, **during this period you can work remotely from your home country**. For more information on the employment of foreigners in Lithuania, please [click here](#).

1ClickFactory will be with you through all the administrative procedures, and will reimburse any related expenses.

In addition, we have an awesome **Big Brother / Big Sister** program, which means that from the beginning you will have a mentor – one of our 1Clickers – who will help you integrate into the company and Lithuania (in other words, who will show you the best places and tell you all the secrets).
