- Solution integrations with Dynamics Partners

Development

Our team of experts that includes a technical lead, a project manager, and a mix of D365 F&SCM developers with various expertise has executed more than 20 successful development projects for Partners and ISVs remotely to date. To best meet your needs, we align the right resources at the right price for your ongoing project.

"1ClickFactory provided a super-fast support response on the customer's emergency request, which enabled us to deliver a successful project that met the customer's expectations within the planned timeframe. I highly recommend working with 1ClickFactory and specifically their Development for AX service."

- P. Skoogh,
Product Manager ExFlow for Dynamics AX at SignUp

The BestPath Assessment

A fixed-price detailed technical analysis that helps to see the specific solution situation based on real facts and numbers and allows us to evaluate which approach for moving to the newest Dynamics 365 for Finance and Supply Chain Management will be the most beneficial for your customer!

- Recommended upgrade approach
- Detailed analysis of the current solution
- More predictability during the upgrade process
- Reduction of costs and risks
- A clear plan for the project execution
- More visibility into customer solution complexity

"I would recommend the BestPath Assessment to everyone who is considering moving their old AX version to the new Dynamics 365 Finance & Supply Chain Management. For Dynamics Partners, it is useful, as we can have a secure, safe and knowledge-based process on how the upgrade should be going. For customers, they can benefit from the existing investment they have in the product while taking an advantage of the newest and coolest things provided by the cloud."

- Martin Cederbom,
Industry Manager at Orango AB

Solution Migration

Entrust your customer's solution migration from any Microsoft Dynamics AX to Microsoft Dynamics 365 Finance and Supply Chain Management to the highly experienced 1ClickFactory specialists, who stay current on the latest technologies and get the project delivered in scope and on time.

- We value our partnerships
- We implement the latest Microsoft technologies
- We sense and tackle the risks in the project

"On behalf of Alna Business, I can say that we would strongly recommend working with 1ClickFactory on future upgrade projects. The attitude, responsibility, involvement, striving to achieve results, and delivery speed of the Dynamics 365 Finance & Supply Chain Management team contributed enormously to the successful upgrade implementation!"

- Giedre Dembickiene,
Project Manager, Alna Business

Solution Maintenance

Once the solution migration is complete, don't forget to keep your customer's newest Dynamics 365 Finance and Supply Chain Management updated and functioning properly after required service updates. To save time, resources, and costs, and reduce the likelihood of errors when performing the updates manually, we are offering a Solution Maintenance service that will enable your customer to assess their solution readiness and will allow them to securely stay up-to-date with the automated solution updates!

Training

Build a specific role-based knowledge of the Micro-soft D365 F&SCM solution, starting from the very basic to advanced D365 F&SCM topics to keep your team certified or up-to-date with innovation.
